INDEX

1985 - 1999

HASKELL FAMILY ASSOCIATION

The Haskell Journal is the official publication of the Haskell Family Association, a non-profit organization dedicated:

1. To research, assemble, edit, and publish a History of the Haskell Family and to do continuing research, updating, and publishing of addendum, revisions and new editions. And to publish such other works as the Board of Directors shall, from time to time, deem relevant and of interest to the membership.

2. To publish a Journal, to be distributed to all members, that will keep members informed of all actions taken by the Board of Directors; of news of family members; articles about Haskell, Haskell locales, general genealogical and historical interest; and Reunions and other activities of the Chapter as well as other matters of importance to the membership.

3. To sponsor reunions for the chapter members on a chapter wide basis from time to time as the Board of Directors may determine. And to encourage smaller family branch reunions as well as regional and local reunions.

4. To encourage and instruct members in genealogical research through careful documentation and maintenance of quality genealogical standards.

5. To conduct its activities on a non-profit basis in any state, county, province or country world-wide and within the laws of such state, county, province or country.

□ □ □ □ □ □ □ □

Queries are published at no charge to members. Individual requests for information and/or assistance in establishing lineages, will be answered on an "as time permits" basis, **ONLY IF A LONG, SELF-ADDRESSED, STAMPED ENVELOPE IS INCLUDED** with the request.

All membership requests, dues, queries & answers and other correspondence should be sent to the Secretary.

VOLUME XV, ISSUE #51, 1999

.....

HOW TO USE THIS INDEX

Indexing all the Journals from 1985 through 1990 was a monumental undertaking. There were more than 24,000 entries, as well as issues to be settled centering around what should be included and what was not necessary. Everything that would better enable to researcher to accomplish the task was included when within reason.

In order to get the most from the index, there are several things that you, the researcher, should do:

1) Make sure you have ALL the Journals; that your set is complete. If not, you can obtain the issues you are missing by using the enclosed form. Any Journals you may not own are available for purchase until the supply is exhausted.

2) The Journals are not all numbered in sequence. Some pages numbers should be numbered as follows:
Volume XIII, Numbers 1 and 2, Issue #45: pages after 872, should be designated 872-1, ending with 872-16.

Volume XIII, Numbers 3 and 4, Issue 46: pages after 880, should be designated 880-1 through 880-27.

Volume XIV, Issue 47: pages 896 through 915 should be numbered.

Early Journals were not sequentially numbered. The first Quarterly, when page numbering began was Volume IV, Number 3, and began with page 201. Any index entry prior to page 201 is show by location: for example, IV-1-7. This number designation is for Volume IV, Issue I, Page 7. For instance, if you are searching for **Ellin Foule**, who married **William Ascall**, you will find her designated II-4-3 (Volume II, Issue 4, Page 3). Since the cross-reference is made, she shows up again under **Haskell**.

There are so many variations of the spelling of the name, **Haskell**, that to reduce the confusion, any variation is also listed under **Haskell**.

WHAT TO LOOK FOR? WHERE TO LOOK?

Under **ARTICLES** you will find an almost complete Table of Contents for all the Journals. One might want to look under **BOOKS** for further study and research. The Books portion is extensive. **POINTS OF INTEREST** are locations of interest to the family **HASKELL**.

Under **BOATS**, you will find the names of Boats that brought immigrants to America. Also included are any other references to boats commanded, such as Tugs, Ships, etc. **WARS**, from the French & Indian Wars to Desert Shield, are in the index, as well as **BATTLES**.

SUPERSCRIPTS, which are generation numbers, are shown in the index if they are indicated within the text of the Journals, or where they can easily be determined by the indexer.

MAIDEN NAMES are cross-referenced. In the cases of two or three marriages, the references are carried through.

PLACES OF BUSINESS, that is, Haskell & Perry will also be shown as Perry & Haskell.

Right: The William Haskell family tree compiled by William Orne Haskell of Mason, NH, dated 1880.

Below: Location of the Roger Haskell homesite. Sketch of house lots, circa 1636 - 1700, at "Bass River Side", then a part of Salem and now the city of Beverly. This is a reproduction from the end papers of Chronicles of the Haskell Family by Ira J. Haskell, Lynn, 1943.

Mrs. Marian S. Anderson, Secretary
Haskell Family Association
200 Brightdale Road
